

Sing unto the Lord a new song, He has done marvelous things, He has given victory! Ps 98:1

Dear Praying and Supporting Friends, We want to bring the Quest funding effort to an end. December 2007

We now have three flying Kodiaks

First Prototype Flight ~ October 16, 2004

This prototype will not be sold

God is greatly blessing the Quest endeavor because our preeminent purpose is His Great Commission.

Christmas is a wonderful time to ponder and try to comprehend God's amazing love in giving us His only Son to save us from our sins. We are all commanded to join Him in that passion for the lost.

Quest is totally committed to bringing that message to the ends of the earth in the decades ahead. God has performed a series of miracles to fulfill our Mission Vision through Quest and you are part of it!

- God used very ordinary people
- Trusting God to use donor funding
- Starting a new company from nothing
- Finding cheap land with airport access
- Designing a Kodiak needing few changes
- Funding our 84,000 sq. ft. factory building
- Safely flying 800 grueling hours of FAA testing
- Passing all the arduous FAA structural testing
- Achieving the FAA Type Certificate approvals
- Building a team of 200 dedicated employees
- Having the first two Kodiaks now ready to sell
- Providing three Kodiaks to missions next year
- God used all of us to accomplish these miracles!
- We thank you for being willing to be part of all this!

Fifteen missions have 55 Kodiaks on order and we must increase our production. Your Year End Gift will help us do this and also help supply a

second Kodiak for Asas de Socorro in Brazil. We are eager to help this indigenous mission expand service to the vast Amazon region where millions of unreached people still wait to hear of Christ's love.

Will you help us with a generous Year End Gift to reach our \$570,954 goal? Please designate your gift in memory of **Bruce Kennedy**. This will help Quest and supply a second Asas de Socorro Kodiak.

Please send your gift to: NCCF/Quest Kennedy Memorial Fund
